### About the Platform

SettlementRadar is America's leading class action settlement platform, helping US consumers discover the settlements they qualify for, file claims in minutes, and get paid. We track 650+ court-verified settlements across data breach, consumer, employment, and financial categories — updated daily from court records, CourtListener, and PACER. Our eligibility engine, deadline alerts, and assisted filing services remove every barrier between consumers and the money they're owed.

### Why Businesses Choose SettlementRadar

- **High-intent audience:** Visitors are actively checking eligibility — not passively browsing.
- **Pre-screened leads:** Consumers confirm the specific settlement before ever seeing your firm.
- **Real-time data:** 650+ settlements updated daily from primary court sources.
- **Compliance-first:** TCPA-compliant lead delivery. No cold contact — only opt-in consumers.
- **Performance reporting:** Weekly reports on lead volume, settlement activity, and match rates.
