## About SettlementRadar

SettlementRadar is America's free class action settlement tracking platform. We monitor hundreds of open settlements and help ordinary people find and claim the money they're owed — without needing a lawyer or paying referral fees.

Every year, billions of dollars in settlement funds go unclaimed simply because people don't know they qualify. SettlementRadar eliminates that information gap by making it easy to search, check eligibility, and file claims in minutes.

Unlike legal referral sites that take 20-40% of settlement payouts, SettlementRadar charges 0% and users keep 100% of what they claim.

## Founder

### **Mitchell Stempowski**

Founder & CEO

Mitchell founded SettlementRadar in 2023 after realizing how many people were missing out on settlements they qualified for. With a background in consumer technology, he built SettlementRadar to be the fastest, easiest way to track and claim class action settlement money without intermediaries or fees.
